

CVTA TAC AGENDA 3/10/25; ITEM 8.

Interest Earnings Candidate Projects – Regional Project Funding

Central Virginia Transportation Authority

BACKGROUND:

The September 27, 2024, CVTA action to set aside \$5.05 million from FY24 interest earnings for regional project development presents the following options, which may be considered by the TAC in addition to others developed by the committee.

1. Preferred: Supplement existing regional projects with an outstanding fund balance. See attached ***CVTA Allocations (FY25-31)***.
2. Allocate funding to new regional projects that applied for funding previously but were not final candidates. See attached ***CVTA Round 3 – Candidate Projects and Recommended Awards***.
 - FLT: Route 1 Fill-in-the-Gaps \$24,376,529
 - E. Parham Road Improvements \$2,500,000
 - RT 288 Southbound C-D Road with Genito Ramp \$42,029,450
 - Route 288 Southbound Hard Shoulder Running Lane \$15,000,000
 - B Forest Hill Avenue Phase II \$10,544,963
 - Huguenot Road (Cranbeck Rd - Robious Rd) Congestion and Safety Improvement \$11,212,381
 - Parham Road Improvements Holly Hill to Three Chopt Rd \$2,500,000
 - US 60 and Dorset Road Intersection Improvement \$12,731,563
 - E. Parham Road and Woodman Road Intersection Improvements \$10,000,000
 - I-95 and Parham Rd Interchange \$4,062,500
 - Bellwood Connector - PE Only \$3,000,000

Discussion:

At the December 2024 TAC meeting, committee members asked for clarification about the list of existing projects. The amounts listed above are the total project costs. Mr. Parsons noted that staff's recommendation is to use the adopted allocations plan as the first resource since those projects are approved and have a balance to complete.

Since the December meeting, Smart Scale Round 6 has been released in a draft staff scenario that will next be considered for approval by the Commonwealth Transportation Board later in 2025. TAC members had requested this information before considering recommendations for allocation of the \$5.05 million interest income. See [Smart Scale 6 Staff Recommended Scenario](#) (linked) for more details.

Requested action:

Motion to recommend a CVTA regional project(s) for allocation of \$5.05 million in interest earnings.

North South BRT	Richmond	Transit	This project will introduce a new bus rapid transit line that connects Northside and Southside Richmond with high-capacity, high-frequency bus service. The North-South BRT will improve travel times, deliver better frequency, and provide enhanced transit amenities to passengers. This project application is for funding for construction of stops and other roadway, signal, and pedestrian safety improvements for the 2.5-mile section along Chamberlayne Avenue from the Henrico County line (Azalea/Wilmer) to Lombardy Street. The improvements will include up to 14 BRT stop locations, traffic signal improvements including queue jumps and transit signal priority, sidewalk and ADA accessible ramp improvements, pedestrian crossing improvements, access management, and streetscape to collectively improve transportation, land use, and health together to make an active public street. Downtown Transit Hub	Richmond	Transit	This project will provide for a permanent brick-and-mortar Downtown Transit Hub facility. GRTC implemented a system redesign, inclusive of the Pulse BRT line in June 2018. The redesign created several major local route and BRT transfer nodes through the design of consolidated and walking proximity of BRT stations and five or more fixed route bus stops (Convention Center Station, Willow Lawn Station, Shockoe Bottom Station, and Science Museum Station). In absence of a main transfer station in the downtown area, the redesign structured the system to have two major transfer areas for local routes utilizing on street right-of-way and sprawling several City blocks due to current right-of-way use, existing street design, pedestrian safety, lighting, and routing efficiency. Between these two transfer sprawl areas, upwards of 7,500 connections and/or final destinations are made per weekday.	3	3	\$ 32,400,000	\$ 12,400,000	\$ 6,500,000
